

NAVORI QL MANAGER AND SERVER DEPLOYMENT

**NAVORI QL SERVER:** The application runs as a background service and stores its data in a Microsoft SQL database. NAVORI QL Players connect to the NAVORI QL Server to retrieve their media and schedules and send back status logs.

**NAVORI QL MANAGER:** Users connect to the NAVORI QL Manager via a web browser from any PC running Windows, Apple or Linux. This interface is both easy to learn and simple to use.

ALL NAVORI QL APPLICATIONS COMMUNICATE VIA THE STANDARD HTTP PROTOCOL. THE USE OF FULL DUPLEX HTTP COMMUNICATION MEANS SERVER AND PLAYERS CAN BE CONNECTED PERMANENTLY AND CONSUME A MINIMAL AMOUNT OF BANDWIDTH.

SYSTEM REQUIREMENTS

<b>NAVORI QL SERVER</b> <ul style="list-style-type: none"><li>• Windows Server 2008 or any Windows PC equipped with Microsoft IIS v7.5</li><li>• Microsoft SQL Server 2008 Express edition or higher</li><li>• 4 GB RAM</li></ul>	<b>NAVORI QL MANAGER:</b> <ul style="list-style-type: none"><li>• PC running any version of Windows, Mac or Linux</li><li>• Web Browser supported: Internet Explorer, Firefox, Safari, Chrome</li><li>• Microsoft Silverlight plug-in must be installed and functional on the management PC</li></ul>	VALUE ADDED PARTNER <div></div>

## NAVORI® QL MANAGER

offers the most powerful,  
most scalable, most reliable  
yet easy to use Digital  
Signage platform solution

Multiple Users can access  
an unlimited number of  
players at just a few  
mouse clicks and offer an  
unprecedented Broadcast  
TV like experience to  
their audience

### APPLICATIONS

Broadcast your message quickly and  
efficiently across one or more screens.

- Corporate Communications
- Retail & Point of Sale
- Advertising Networks
- Fast Food Digital Menu Boards
- Banks & Financial Institutions
- Education
- Airport & Transportation
- Hospitality & Entertainment
- DS Operators & Service Providers

### A QUANTUM LEAP IN DIGITAL SIGNAGE

The NAVORI QL Digital Signage platform can power  
any deployment from one to several thousand  
screens on any TCP/IP compatible network topology.  
It is extremely easy to use and seamlessly integrates  
in any multi-user workflow environment.

### SUPPORTS POPULAR MEDIA FORMATS

SUPPORTED MEDIA FORMATS ARE:

- Flash®
- Microsoft PowerPoint® 2003, 2007, 2010 (converted)
- Video: MPEG layer 1, 2 and 4, Windows®
- Media SD and HD, DivX, QuickTime®7 SD  
and HD, FLV
- Audio: WAV, WMA, MP3
- Streaming: MMS and ASF
- IP and on-demand TV
- Images: PNG, BMP, GIF, JPEG
- HTML and all inferred functionalities
- DVD-Video playback, TV-Tuner and DirectX  
based input feeds.

### ONLINE CONTENT, TEMPLATE AND DATA FEED DESIGNER

- Create content and aggregate data feeds without  
having to resort to a programming language.
- NAVORI QL Designer is accessible from anywhere  
via a Web Browser and allows multiple users to  
collaborate on the same project.

### PLAYER MANAGEMENT

Players are managed in Groups and Sub-Groups.  
Depending their administrative rights users can  
access one or more content libraries, technical  
profiles and player categories. Navori QL fits any  
hierarchic workflow environment.

### CONTENT LIBRARIES

NAVORI QL SUPPORTS FOUR TYPES OF  
PROGRAMMABLE CONTENT:

- Media Files (supports all media formats).
- Templates and Multi-zone screen lay-out.
- Banners and Titling at TV broadcast quality.
- Triggered Content : Interactive or on-Demand  
content launched by pre-defined rules or incidents.  
Play lists can be overruled both centrally or on  
local player level through external applications  
(Remote Control, Touch Screen, Fire Alarm, RFID,  
Motion Detector...), including Real-Time Data and  
Information (storage temperature drift, available  
stock level, sales volumes achieved...)

### PROGRAMMING GRID AND PLAYLIST

- Create your own playlists then drag & drop them  
right into the programming grid.
- Send programs to Players based on their physical  
location, demographics, language, profile or  
other criteria.
- Create dynamic play-out rules and blend multiple  
playlists on the fly in function of your campaigns.

### PLAYER MONITORING IN REAL-TIME

NAVORI QL keeps full and real time control of the  
status of your players by controlling 30 different pa-  
rameters and keeps you informed via SMS or email  
on any event occurring. With this Easy Monitoring  
you can control the status of hundreds of Players in  
a matter of seconds.

### PLAYBACK REPORTING

- NAVORI QL Players upload their proof of actual  
playback reports to NAVORI QL Server.  
This information is stored in NAVORI QL Server's  
own database.
- NAVORI QL has the most powerful yet easy to use  
reporting system. Statistics data can easily be  
migrated to third party applications (airtime  
invoicing etc).

### ADVANCED MULTI USER CAPABILITIES

- Either a single network manager or hundreds of  
simultaneous users can manage their campaigns.  
NAVORI QL allows to create and define user  
profiles based on more than 80 administrative rulings.
- NAVORI QL Manager is accessible from anywhere  
via any Web browser on Windows, Linux or Mac  
consoles.

### HIGHEST QUALITY AT LOWEST COST

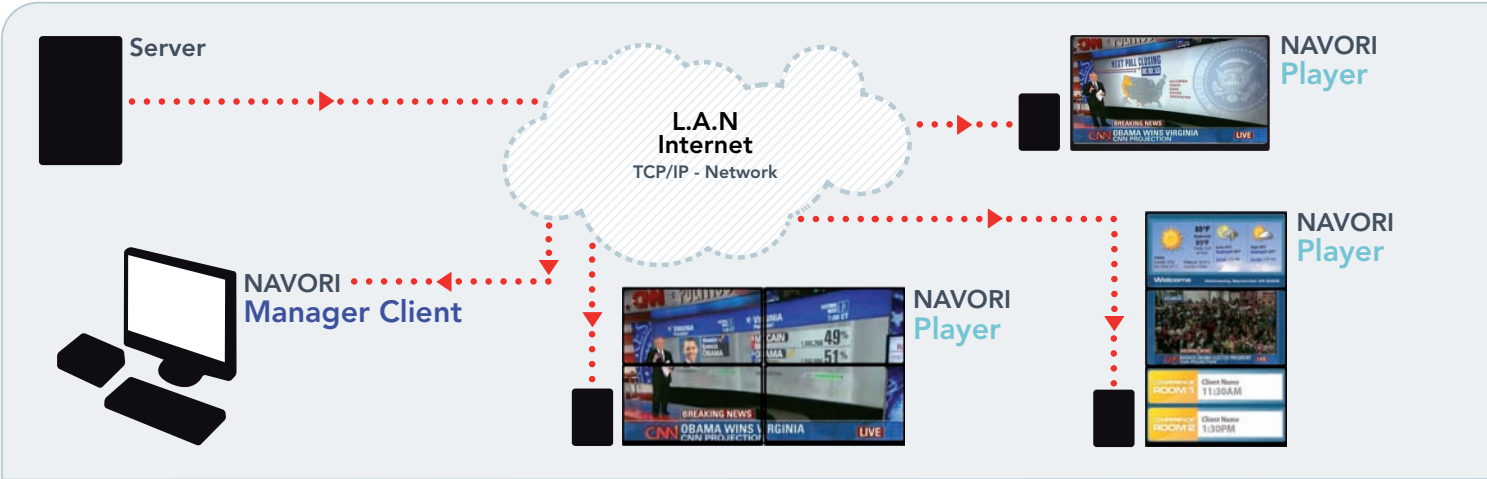

The proprietary NAVORI QL Player technology offers  
unprecedented Broadcast TV like play-out quality even  
on low-end PC platforms. Combined with the power,  
flexibility and ease of use of the management suite,  
NAVORI QL seriously leverages both the investment  
and operational costs of any Digital Signage project.

NAVORI QL PLAYER DEPLOYMENT

NAVORI QL Player is a software application that you install on a PC that is connected to the display screen. This software communicates to a central NAVORI QL Server via http connection (via the Internet or private LAN).

NAVORI QL PLAYER HANDLES TWO TASKS:

- It plays content according to a previously downloaded schedule or it plays on-demand content that has been triggered.
- It communicates with NAVORI QL Server to:
  - Download new programming and associated content.
  - Download data and other information to be displayed in real-time.
  - Upload information to NAVORI QL Server about its current status and to send proof of playback reports.

UNPRECEDENTED HARDWARE OPTIMIZATION

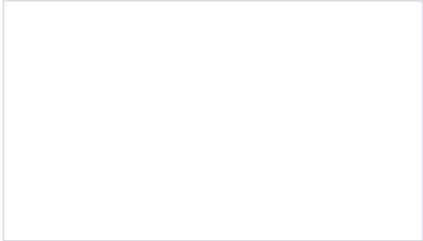

SELECT YOUR PC HARDWARE ACCORDING TO WHAT YOU INTEND TO DISPLAY.

HARDWARE CONFIGURATION	ATOM - INTEL CHIPSET	ATOM - ION NVIDIA CHIPSET	I-3	I-5	I-7
Max. simultaneous graphic file(s) <small>(Upeg, Swf, PPT...)</small>	4	7	10	15	25
Max. simultaneous video files(s)					
SD content	1	2	4	6	16
HD content	-	1	2	4	12
Frame accurate synchronized video	-	-	✓	✓	✓
Banner overlay with transparency	1	2	4	7	15
Triggered content	✓	✓	✓	✓	✓
Real-time monitoring	✓	✓	✓	✓	✓
Playback reporting	✓	✓	✓	✓	✓
TV tuner	-	-	✓	✓	✓

SYSTEM REQUIREMENTS

- Windows 7 (all editions), Vista or XP
- Consumer and embedded versions are supported
- Microsoft .NET Framework 4
- NVidia or AMD (ATI) graphic card
- RAM 2Gb
- 7200 RPM hard drive with 300 Mb free space
- Microsoft DirectSound compatible sound card

# NAVORI<sup>®</sup> QL PLAYER

is the only digital signage  
playback engine able to  
produce Broadcast TV  
look and feel on thin client  
PC platforms

NAVORI QL Player  
incorporates the most  
advanced player technology  
offering Superior Playback  
and unprecedented  
Graphic Performance

## EXCLUSIVE AND PROPRIETARY GRAPHIC ENGINE

- Unprecedented Broadcast TV Quality Playback
- 1/30th of a second precise frame per frame accuracy
- Seamless TV-like transitions

## SUPPORTS POPULAR MEDIA FORMATS

- SUPPORTED MEDIA FORMATS ARE:
- Flash<sup>®</sup>
  - Microsoft PowerPoint<sup>®</sup> 2003, 2007, 2010 (Converted)
  - Video: MPEG layer 1, 2 and 4, Windows<sup>®</sup>
  - Media SD and HD, DivX, QuickTime<sup>®</sup> 7 SD and HD, FLV
  - Audio: WAV, WMA, MP3
  - Streaming: MMS and ASF
  - IP and on-demand TV
  - Images: PNG, BMP, GIF, JPEG
  - HTML and all inferred functionalities
  - DVD-Video playback, TV-Tuner and DirectX based input feeds

## INCLUDES COUNTLESS FEATURES

- Multi-zone playback capabilities
- Content synchronization and perfect transitions
- Titling and TV-like Banners
- Multi-layer Support: Media Cropping, Data Feeds, Layer Transparency...

## MULTI-SCREEN AND MULTI CHANNEL FULLY SUPPORTED

- NAVORI QL Player allows the simultaneous playback of multiple HD video content streams
- Display of Full HD content on as many as 12 screens all driven from a single PC
- Video Banners, Video Columns, Video Walls...
- NAVORI QL supports all screen configurations

## UNPRECEDENTED HARDWARE OPTIMIZATION

Broadcast HD TV Quality Playback on entry level PC enabling a scalable player hardware deployment in fuction of your playout requirements.  
-See comparison table on last page-

## CONDITIONAL AND RULE- BASED PLAYBACK

By default, NAVORI QL Player displays scheduled content but it can also display sontent and playlist based on predefined rules:

- Playlist Merging and Sequencing
- Content managed by Category, Validity Period, Date, Time...
